

Using your equation, you must accomplish the following items. The poster should be neatly displayed and eye-catching.

- 1) Write each equation in standard form and slope intercept form
- 2) Solve your system of equations by using substitution.
- 3) Solve your system of equations by using elimination.
- 4) Solve your system of equations using Cramer's Rule.
- 5) Solve your system of equations using inverse matrices.
- 6) Graph your equations and display their intersection point.
- 7) Be sure to show all of your work and every step!
- 8) Use your creativity to make the poster eye-catching.

This poster is due on Tuesday, November 1 at the beginning of 7th hour. If it is turned in after that time it will be considered late, and you will be docked one letter grade per day.
